Built in 1969 / Renovated in 1992 & 2005

Stories

Twenty-One (21) + Lower Level

Rentable Area

361,031 Square Feet

Average Rentable Floor Area

+/- 21,400

Security

24-hour security is provided by ProTech. All tenant employees are given access rights via an electronic card key. A card reader is located at the main entrance to the Property on the right exterior column for after-hours access, and a card key is required for floor access via the elevators at all times.

Parking & Related Services

250 valet parking spaces in a 5-level garage located on floors 1-4 and the lower level of the building.

Parking Ratio: 1 / 1,420 Monthly Rate: \$425 (tenant); \$440 (non-tenant)

Parking Hours: M-F: 6:00 a.m. to 8:30 p.m.

Amenities

There is a Fitness Center located in the basement of the building solely for tenants of 475 Sansome Street. Operating hours are Monday through Friday, from 5 am to 11 pm.

There are two (2) bicycle storage areas located on the ground level of the garage available for use Monday through Friday, from 5 am to 8:30 pm. Laundry Locker is a dry cleaning and wash/fold service located in the garage.

Retail

Ground level: Mixt Greens, and Imagink Printing Services.

Floor Specifications

Ceiling height: 8'10

Slab to slab: 12'8

Slab to beam: 9'2

Finished ceiling to slab: 3' 10

Finished ceiling height: 8' 10

Broadband Services

Telecom: There are six (6) 4" conduits incoming to the MPOE from AT&T and two (2) 4" conduits possible link to another building.

Voice / Data Services: AT&T has adequate capacity for T1, DSL and POTS service. There are fiber optics (DS3, OC3, and OC12).

HVAC

The HVAC systems serving the office floors Perimeter zones are served by ceiling-mounted 4-pipe fan coils. The two exterior induction supply air systems were converted to minimum ventilation systems supplying preheated outdoor air to the ceiling plenum near fan coils. The constant volume interior system provides cooling only. All HVAC systems are controlled by a Honeywell direct digital control (DDC) system installed in 1990. This system is also integrated with the life safety system. Lighting is controlled by a separate GE control system.

Elevators

Eight (8) 700 fpm gearless passenger elevators with a capacity of 3500 lb.

One (1) 500 fpm service elevator with a capacity of 4500 lb.

Energy Star

Energy Star designation since 2002. The building received an Energy Star Rating of 93 in 2020 and is a rating of 88 (due COVID19 and low occupancy at the building) for 2021.

LEED

LEED-EB Gold certified in 2010, Platinum-certified in 2016, and Platinum re-certified in 2021.

Fitwel

Certified in 2019. MEPT 475 Sansome Street was the first building in California to achieve Fitwel certification using the Multi-Tenant Whole Building Scorecard. Re-certification to occur in 2022.

Fitwel VRM

Certified in 2020 and recertified in 2021.

Scores

Walkers Paradise Walk Score: 100

Riders Paradise Transit Score: 100

Very Bikable Bike Score: 87

Smart Design

Tenants and visitors are welcomed in a renovated modern lobby with 24/7/365 security staffing.

Sustainably designed and operated, 475 Sansome is LEED-Certified Platinum, Fitwell and Fitwell VRM-certified, and ENERGY STAR-labeled.

Property Information

Location

475 Sansome Street
San Francisco, CA 94111
Central Business District

Building Description

475 Sansome is a 21-story office tower, including a mechanical penthouse on the top floor plus a lower level. The first and second floors consist partially of retail space, and partially of a parking garage. The third, fourth floors and partial lower level are a parking garage, and the fifth through twentieth floors are office space. The top floor and roof consist of mechanical space, tenant storage and engineers' office. Substantially renovated in 1992, 475 Sansome has received over \$7.2 million in capital improvements and upgrades since 2005.

Parking Hours: M-F: 6:00 a.m. to 8:30 p.m.

Loading Dock

Covered, enclosed and secured loading dock, equipped with a dock leveler, provides space for rigs plus delivery trucks.

Amenities

There is a Fitness Center located in the basement of the building solely for tenants of 475 Sansome Street. Operating hours are Monday through Friday, from 5 am to 11 pm.

There are two (2) bicycle storage areas located on the ground level of the garage available for use Monday through Friday, from 5 am to 8:30 pm. One (1) is a secured cage, accessible only by building tenants with the use of their electronic access card.

Laundry Locker is a dry cleaning and wash/fold service located in the garage.

Retail

Ground level: Mixt Greens, and Imagink Printing Services.

Floor Specifications

Ceiling height: 8'10

Slab to slab: 12'8

Slab to beam: 9'2

Finished ceiling to slab: 3' 10

Finished ceiling height: 8' 10

Construction

The building is Type I, Fire-rated construction consisting of a rigid, steel moment-frame with precast concrete wall panels and column covers. The building is supported by several hundred prestressed, precast concrete piles, each embedded between 20 and 26 feet below the basement level. The piles are tied together with concrete pile caps.

Window Framing

Aluminum-framed windows

Exterior Glass

1/4" bronze annealed glass

Mechanical

Electrical

Electrical service to the building is provided via two service lines (1) 4000-amp & (1) 3000-amp 3 phase 4 wire in the basement. The 4000-amp service is for mechanical and power with the 3000-amp service for lighting. Electrical power is distributed at 480/277 volts. Lighting is provided by parabolic high efficiency fluorocarbon light fixtures.

Broadband Services

Telecom: There are six (6) 4" conduits incoming to the MPOE from AT&T and two (2) 4" conduits possible link to another building.

Voice / Data Services: AT&T has adequate capacity for T1, DSL and POTS service. There are fiber optics (DS3, OC3, and OC12).

HVAC

The HVAC systems serving the office floors Perimeter zones are served by ceiling-mounted 4-pipe fan coils. The two exterior induction supply air systems were converted to minimum ventilation systems supplying preheated outdoor air to the ceiling plenum near fan coils. The constant volume interior system provides cooling only.

The central chilled water-cooling plant consists of a primary-secondary distribution system with three chillers piped in series. One of the chillers is a Carrier Centrifugal Liquid Chiller with a capacity of 500 tons. The second Chiller is a York Centrifugal Liquid Chiller also with a capacity of 500 tons. A plate-and-frame heat exchanger water-side economizer was added in 1997.

Chiller heat is rejected to two cooling towers, which were installed in 1969. The two towers were rebuilt in 2001. The boiler plant consists of 3 RBI Futera

XLF boilers. Hot water is distributed with a primary-secondary distribution system. The ground and second floor retail areas and public spaces are serviced by constant volume air handlers.

All HVAC systems are controlled by a Honeywell direct digital control (DDC) system installed in 1990. This system is also integrated with the life safety system. Lighting is controlled by a separate GE control system.

Elevators

Eight (8) 700 fpm gearless passenger elevators with a capacity of 3500 lb.

One (1) 500 fpm service elevator with a capacity of 4500 lb.

The equipment was manufactured and installed by Otis Elevator Company in 1969. The elevators are designed to operate under various emergency conditions such as emergency fire recall and earthquake. The elevators are equipped with standby power operation with the ability to operate one elevator at a time. The elevator control system was modernized in 2005/2006.

Janitorial

An effective custodial program was given the highest rating in its category with green cleaning practices incorporating usage of HEPA filtered vacuum cleaners and microfiber dust cloths. Ninety percent of the cleaning products purchased contain high recycled content or meet rigorous EPA and Green Seal standards of sustainability.

In addition, the building and its tenants re-use, recycle, and compost more than seventy-five percent of the ongoing consumable waste stream, measured on a monthly basis. Quarterly electronic waste events

are hosted through Green Citizen, and an on-site recycling kiosk is available for the disposal of batteries, cell phones, CDs and DVDs, and printer cartridges.

Cleaning protocols started including disinfecting products as recommended/mandated by local authorities and WHO in 2020 due to the pandemic.

Life Safety Systems

The fire alarm and communication system is a Honeywell FS90 multi-plexed addressable system.

The system was installed in 1991 and provides monitoring of the following addressable devices or monitoring relays: smoke detectors, duct smoke detectors, manual pull-stations, sprinkler water flow alarms, tamper switches at the sprinkler valves, and system control relays.

Occupant notification is provided through voice communication speakers and visual alarms (strobes) throughout the building. The fire alarm system is installed in a firefighter's command center (FCC) located beyond the elevator lobby at the ground lobby.

Window Washing

The exterior glass is cleaned twice per year.

Awards

Energy Star

Energy Star designation since 2002. The building received an Energy Star Rating of 93 in 2020 and is a rating of 88 (due COVID19 and low occupancy at the building) for 2021.

LEED Platinum

Platinum-certified in 2016, and Platinum re-certified in 2021.

Fitwel

Certified in 2019. MEPT 475 Sansome Street was the first building in California to achieve Fitwel certification using the Multi-Tenant Whole Building Scorecard. Re-certification to occur in 2022.

Fitwel VRM

Certified in 2020 and recertified in 2021.
